Attention:

Carefully read all instructions and review the images before installing this product.

Do not attach anything to the mount face plate until after installing the mount to the dashboard. Doing so makes it more difficult to install the mount to the dash and non-refundable since you have screwed into it.

1. Remove the two screws above the upper right and left corners of the cubby or storage box in the upper center of the truck dash.

2. Insert the ProClip center mount into the space so the holes in the upper right and left corners of the center mount align with the holes where the screws were removed.

3. Reinsert the screws into the holes they were removed from and tighten the screws.

4. The ProClip Mount is in place.
