It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. ProClip USA, Inc. shall have no liability for damage or injury resulting from the installation or use of any ProClip or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. ProClip USA, Inc. product warranties do not cover the installation, removal or re-installation of any product.

This product should be installed with the USB cable plugged into Output 1 on the power supply

Power Rating: Input Voltage: 12-24 VDC, 2A Output 1:3.6 - 6V 3 A, 6.2 - 9V 2A, 9.2 - 12V 1.5A

Output 2: 5V 2.4A

Attention:

Carefully read all instructions and review the images before installing this product.

1. Assemble the Tough Sleeve:

Place tablet face up on the Tough Sleeve back plate and connect the power cord. Fit the Tough Sleeve face plate over the tablet to enclose the device. Making sure to hold the sleeve together flip it over and secure using the enclosed screws. Once in place the tablet will be secured inside the Tough Sleeve.

2. Attach the Quick Release Power Dock

Unscrew the screw in the center of the power dock so you can remove the tilt swivel base plate on the back. Place the tilt swivel base plate on the mounting surface. Attach the base plate by using the applicable screws enclosed - self-tapping screws if the mount has small holes or machine screws with nuts if the mount has larger holes. Place the power dock onto the tilt swivel base plate and reattach it with the center screw. Adjust the power block to the preferred position, and then tighten the center screw firmly to lock the angle into place.

3. Docking and Removing the Tough Sleeve

To insert the tablet into the power dock slide the back connector into the power dock. (contacts should line up) To remove the sleeve press the release tab on the power dock slightly and slide the sleeve up and away from the dock. The charging connectors in the power dock allow the tablet to stay charged while also allowing the sleeve to be easily removed from the mounting location.

4. Installation Complete

The tough sleeve is in place and can be used while docked. This product is compatible with the AMPS hole pattern featured on most ProClip mounts.
