

Product Overview

This unique USB to USB-C charge with data transfer cable features a removable magnetic USB Type-C connector that is ideal for charging and syncing Android smartphones, tablets, and other USB Type-C compatible devices from brands including Samsung, Google, Nexus, and LG.

The cable design allows you to keep the connector attached to your phone or tablet. Simply attach the magnetized cable to the connector to charge and sync the device—no more plugging and unplugging! The connector stays in the device to extend the life of the charging port and protect it from dust, dirt, and other contaminants.

(Devices not included)

Product Components

- **CAMAG02-B** – Magnetic Charge Cable with Data Transfer
- **SPCAMAGC** – Type-C USB Adapter for Magnetic Charging Cable

Product Specifications

Length: 3.5 feet (1.07 meters)
Weight: 0.7 ounces (20 grams)
Charging Specifications: 5V 2.1A
