**INFINITI- QX56 04-07**

**Titan 10-12 (pg.2), 13-15 (pg.2)**

**(All COLUMN Shift Only)**

**(For Console Shift See #751311104)**

### \*\* ADVISEMENT \*\*

Read instructions completely prior to starting installation. All InDash Mounts are designed so that after installation, phone is facing normal driver position for left-hand drive vehicles. This mount is not designed to be used in foreign countries with right-hand drive vehicles. Use extreme care when working around the plastic components on the dash. Excess force, can cause breakage of the plastic components.

### All Models w/ Model Years: 04-09 (w/console)(w/o console to STEP#2)

STEP #1: Begin by pulling off the console top. First remove the shifter knob by pulling down on the snap ring below the shifter knob and let it slide down. Then unscrew the knob and set aside. Continue to lift up on the console top which includes the cup holders etc. Move it off to the side.

STEP #2: With your hook tool pull out the top of the radio bezel panel. Pull to release (3) clips at the top of the bezel. Continue to release the remaining clips on this bezel. This will allow you to get at the upper right side radio screw. Remove the upper right side radio screw. There is a strap on the '08 holding this panel in place. Disconnect strap if necessary. Note: Do Not start vehicle with electrical strap disconnected as it will cause all radio codes to be deleted. Place InDash by PanaVise over screw hole and replace screw.

STEP #3: Replace the radio bezel panel, console top, and shift knob.

INSTALLATION IS NOW COMPLETE. ENJOY YOUR NEW INDASH BY PANAVISE MOUNT

InDash mounted on screw.
