

SureCall 12" Antenna (SC-200W-58)

Wide Band Magnet-Mount Exterior Vehicle Antenna

Overview

Designed for top performance in rural areas, the SC-200W-58 exterior vehicle antenna helps improve cell signal inside any car, truck, van, or SUV when paired with a vehicle signal booster.

SC-200W-58 is a 12" roof-mount antenna made of stainless steel that is fully weather-proof. It mounts to the vehicle using a strong magnet base and designed to be positioned upright. The omni-directional antenna captures signals from all directions and does not need to be pointed towards the tower.

- » 5 dBi Gain
- » Wide band (698 - 2700 MHz)
- » Omni-directional
- » FME-Female connector (50 Ohm)
- » Magnetic mount

Specifications

Frequency	698-960 / 1710-2700 MHz
Bandwidth	118/140
Max Gain	5 dBi
VSWR	<3.0
Input Impedance	50 Ω
Polarization Type	Vertical
Max Power	25W
Radiation Pattern	Omni-directional
Connector Type	FME-Female
Ground Plane	Metal ground plane required
Material	Whip - Stainless Steel
Weight	2.6 oz
Dimensions	12.9" x 1.45"
Mount	Magnet
Operating Temp.	-22°F to +176°F
Cable length	12 feet
